PNC/MLA Technology Committee

Proposed charge:

The Technology Committee is responsible for investigating emerging technologies, informing the PNC/MLA Board and members of potential uses for the Chapter and the field of medical librarianship, and integrating appropriate technologies into the PNC/MLA web site and communications.

Duties:

• Investigate and integrate appropriate technologies for use by PNC/MLA members for activities such as distance teaching and learning, communication, collaborative projects, etc.
• Investigate and integrate appropriate technologies to communicate effectively with the PNC/MLA membership. Examples include, but are not limited to: blogs, wikis, microblogs, and instant messaging.
• Investigate and recommend software that could be used by small medical libraries
• Communicate recommendations to the PNC/MLA Board and membership
• Develop and update a Technology section for the PNC/MLA web site
• Work with the Professional Development Committee on ideas for workshops and classes in the area of library automation and technology
