#2 SUPPORTING HEALTHCARE PROFESSIONALS IN EASTERN WASHINGTON

KATHRYN KANE
Supporting Healthcare Professionals in Eastern Washington

Kathryn Kane, MLIS
Health Sciences Outreach Librarian
Washington State University Spokane
Elson S. Floyd College of Medicine

- Rural and underserved areas
- Statewide and community-based
- Human health and wellness research
- Inter-professional education
Health Sciences Outreach Librarian

Two Main Objectives

- To conduct outreach activities highlighting resources available to healthcare professionals in Eastern Washington
- To equip medical students with an understanding of resources for EBP and strategies for professional growth
Position Objectives

- NLM, state, and university resources
- Increased numbers of registered users of state resources
- Increased awareness and use among WSU Spokane health professions graduates
- Nurses and health professionals working with K-12 students
First Year Goals

1. Network with medical school faculty
2. Become familiar with the curriculum and support needs on campus
3. Plan outreach approach to various populations in six counties
4. Arrange a visit and presentation in each of the six counties
5. Assess likely information needs and specific target agencies and groups
